## COMPANY

The Restaurant in City, State, is owned by David Owner, LLC, a State Limited Liability Company formed 20XX. Mailing Address: X Telephone: X. Email: X.

Dave and his son, Mike have dreamed of opening and running a business together. They both love sports and are very family-oriented. They have been looking for a unique franchise with the right concept which reflected their values and philosophy, and which provided the proper training, support, and operating system to help ensure a successful transition from their current situation. The Restaurant concept met these needs with its unique family-oriented theme and focus on training, cost control, and ongoing support.

## RESTAURANT FRANCHISE

Restaurant X operates as a franchise of "Restaurant, which is owned by X, Inc., City, State Telephone: X..

## UNIQUE CONCEPT

X Restaurant is a family oriented restaurant which also specializes in sports. This is a unique concept which is much different than a typical sports bar and grill.

Restaurant has positioned itself as a quality family restaurant first. An excellent, varied menu competes with other dining establishments on an even playing field all year-round. Our great salads, wines, steaks, and burgers also help to create a place far apart from your typical male dominated, smoke-filled environment normally associated with run-of-the -mill sports bar concepts. Plus, the enclosed kid's game room makes Restaurant a fun, happy place for the entire family. In addition, our immaculate restrooms, well-lighted interior, and emphasis on comfortable seating make Restaurant a place people want to be.

Restaurant is a restaurant with great food and quick service in a setting that is always easy-going with a comfortable atmosphere. Combine these features with a friendly team-oriented staff and that is what we at Restaurant feel a Neighborhood Restaurant should be! Now, throw in all the qualities of a fun, sports pub-one that takes it's sports quite seriously, with big screen televisions and numerous smaller screens that are placed so that every sports fan can view a variety of games all at the same time.

Restaurant provides a "family-friendly" atmosphere with entertainment for both young and old, as well as a moderate pricing structure for all economic classes. We constantly strive to provide the best possible conditions for viewing all of the major sports, by incorporating state-of-the-art satellite capabilities with the most current technology in televisions and a staff well-trained in finding even the most obscure games and bringing them to the customer's table. Every convenience has been well thought out, including tabletop speakers for the customer who simply must hear a game that is not being run through our inhouse audio system. We believe we can and must offer our guests the convenience, quality, and service that simply cannot be obtained anywhere else.

Attention has been given to every detail, from the contemporary colors and warm oak interior, to a sophisticated, state-of-the-art satellite system and comfortable seating, because we want Restaurant to be more than just a "sports pub." We feature a full bar with 20 beers on tap, signature drinks and a varied wine list; plus, a menu that ranges from our signature salads and chicken wings, to char-grilled sandwiches and Angus burgers, to baby back ribs and certified Angus steaks. And the enclosed kid's game room makes Restaurant a fun, happy place for the entire family. Along with our immaculate restrooms, well-
 lighted interior, and emphasis on comfortable seating make Restaurant a place people want to be.

This is a place where friends can meet, where families feel comfortable bringing the kids, and where everyone matters and no one is left out.

## PROVEN CONCEPT/EXPERIENCED FRANCHISOR

Restaurant is owned by $\qquad$ , Inc., X
City, State 1111. Telephone: X, www X, Email X.
X, CEO of X, Inc., the franchisor of X, came from a highly successful franchise development business that took him all over the world in the past 20 years. Together with partners X Y, they dreamed of building a sports-themed restaurant concept that transcended the traditional barriers of the industry.

The trio's research had unearthed an important fact: two pre-conceived notions were standing in the way of their dream. To succeed, they would have to overcome these barriers, position their franchise model as a unique concept, and create an untapped niche within the industry itself. They already knew watching professional sports is one of the most popular traditions in America and around the world. They also knew sports is one of the most popular and recession proof industries around.

However, research showed that women and children wouldn't go near what had traditionally been a smoky bastion of maleness; sports bar-and-grills. And while most concepts of this nature could easily fill the seats on busy football weekends in the fall, other times of the year these establishments simply survived; limping along, unable to make it as a traditional restaurant until the next big game. When the sports ended, the crowds and the revenue left as well.

As a rabid sports fan, X had traveled the world seeking out sports themed establishments and making notes. He would make the rounds, analyzing the strengths and weaknesses of each city's sports viewing venues before returning to his home in X, State. There he would share his findings with X, owner/operator of X, an already successful sports establishment in City, State. By this time, X was already test marketing a menu that would eventually become an integral part of the Restaurant concept.
"We knew that to succeed we would have to position ourselves as a family oriented restaurant that just happens to specialize in sports," says X.

In their quest to offer something for everyone, they developed family friendly prices, signature salads, quality certified Angus beef, and an enclosed soundproof video game room for the kids. They dug hard to discover that customers wanted immaculate restrooms and a well-lighted interior. And while plastic seating may be the norm for quick turn fast food establishments, the Restaurant team discovered their target customer's wanted comfortable seating. So X and X took their own design to a manufacturer in Florida. "We wanted our customers to feel as they could comfortably stay all day long if they wanted", says X and X . Indeed, Restaurant does not have the look of a traditional sport's pub.

But not forgetting their core customer would first and foremost come looking for an enjoyable sports viewing venue, the team packed Restaurant with state-of-the-art, hi-tech equipment. "People come here expecting to watch several games at one time", says X, "We wanted every customer to have the best seat in the house." That meant placing plasma, high definition, and large screen televisions throughout the restaurant, with wireless speaker boxes for every table. And while the average customer probably wouldn't notice the placement of sports memorabilia, it, too, was researched well in advance. Team banners and logos are grouped by conference and region so customers feel as if they're right in the middle of the action they came to see.

The total time spent researching, developing, implementing, and testing the Restaurant concept was seven and a half years from the team's decision to move forward. Restaurant is proving that time spent on the initial stages pays off.

According to X, thirty-eight franchises have been awarded in California, Arizona, Colorado, Georgia, Kentucky, North Carolina, South Carolina, West Virginia, Nebraska, Nevada, Alabama, Missouri, Iowa, Oklahoma, and State, with plans to develop in a number of other markets.

Now that the Restaurant concept has been road-tested, the management team is planning to slowly and carefully fan out regionally.
"We want quality franchisees dedicated to the owner/operator concept," says X, "We know they'll succeed if they just follow the plan."

## FRANCHISE AGREEMENT

## Franchise fee

Franchise fee: \$XX,000

## Term of the franchise aqreement

The initial term is for a period of ten years, after which the agreement can be renewed in ten year increments pursuant to the Franchise Agreement and lease availability.

## Territory and site selection

Each franchisee is allocated an area exclusive of any other franchise location. Franchisor assists in searching for an available site by recommending a commercial real estate broker already familiar with the Restaurant demographics. They then offer assistance in site analysis and site selection.

## Training and opening assistance

Restaurant requires successful completion of its six week training program for all franchisees and one to two management personnel at a designated location. In addition to the initial training program, Restaurant Corporate Training Team will be sent to the location to conduct pre-opening training for ten days prior to the opening date and will stay for seven days after opening to offer continued support.

## Continuing operational guidance

Restaurant provides a confidential Operations Manual, which covers in detail the many facets of restaurant operations. Updates to this manual will be sent as they are implemented. Periodically, the location will be visited by field representatives to insure smooth operations and offer counsel and advice. In addition, the Franchise Support Department is available, by phone, to answer any questions that may arise.

## Advertising

Advertising is essential in building the reputation and brand recognition of the Restaurant name, which, in turn, benefits all franchisees. For this purpose, each franchisee contributes $1.5 \%$ of gross receipts into the Marketing Fund.

## Charge for continuing service and royalty

The charge for continuing service and royalty is $5 \%$ of Gross Sales.

## Profit

The Franchisor makes no profit or earnings claims. Earnings are based on many variables such as retail sales, sales margins, cost of goods sold, location, fixed costs, variable costs, operating costs, financing costs and other factors.

## Purchasing

Furniture, fixtures and equipment necessary for the business may be purchased from the franchisor approved suppliers or manufacturers.

## Food supplies

Restaurant corporate supplies all secret recipe products, Sysco provides many of the food supplies, X, Inc. is the approved supplier of the X POS computer system. Other than initial start-up costs and equipment and building leasing costs, this will be primarily a cash business on an on-going basis. The franchisor monitors all locations to ensure that they are in compliance and are taking advantage of the national pricing structure.

## Licenses, patents, trademarks, and copyrights

All trademarks are owned by X, Inc., and the rights to use the name, logo, and other proprietary information is granted only by the Franchisor.

## Selling

The business may be sold to any buyer approved by Restaurant, subject to a transfer fee for administrative, legal, and other related expenses.

## MARKET

## NATIONAL RESTAURANT MARKET

Nationally, with X restaurant locations, the restaurant industry's direct sales are expected to reach $\$ \mathrm{X}$ billion a year in 20XX - serving more than more XX billion meal and snack occasions.
"Restaurants touch millions of lives every day by serving quality meals, providing abundant career and employment opportunities for individuals of all backgrounds, and being a driving force in the U.S. economy and local communities nationwide," according to X , president and chief executive officer of the National Restaurant Association. "The restaurant industry is in its Xth consecutive year of real growth in 20XX, and will have a total economic impact that will exceed \$X trillion."

## CORNERSTONE OF OUR ECONOMY

- Restaurant industry sales are forecast to advance $5 \%$ in 20XX and equal $\mathrm{X} \%$ of the U.S. gross domestic product.
- Restaurant-industry sales on a typical day in 20XX are expected to reach $\$ \mathrm{X}$ billion.
- The overall economic impact of the restaurant industry is expected to exceed $\$ 1.3$ trillion in 20XX, including sales in related industries such as agriculture, transportation, and manufacturing.
- Every dollar spent by consumers in restaurants generates an additional $\$ \mathrm{X}$ spent in other industries allied with the restaurant industry.
- Every additional \$X million in restaurant sales generates an additional X jobs for the nation's economy.

## NUMBER ONE EMPLOYER

- The restaurant industry employs an estimated XX million people, making it the nation's largest employer outside of government.
- The restaurant industry provides work for more than X percent of those employed in the United States.
- The restaurant industry is expected to add 2 million jobs over the next decade, for total employment of X million in 20XX.
- Nearly half of all adults have worked in the restaurant industry at some time during their lives and X percent of adults got their first job experience in a restaurant.

## MARKET

- Americans spend approximately X percent of their food budget in restaurants.
- Four out of five consumers agree that going out to a restaurant is a better way to use their leisure time than cooking and cleaning up.
- Because of the huge size of the food service industry, increased workload on families, and reduced free time, there is increasing demand for full-service restaurants offering prompt and courteous service.
- The Gallup Organization has found that the restaurant industry is the most highly regarded business/industry sector in America. Restaurants give back. Restaurants are an important part of local communities; 9 out of 10 restaurants donated food, time, facilities and other resources to charitable causes.

## (Source: National Restaurant Association, www.restaurant.org)

## STATE RESTAURANT MARKET

State restaurants provide appetizing, healthful and nourishing food, convenience, value, entertainment, and social occasions where people can enjoy friends and family away from the stresses of daily life. Restaurants in State also are an engine of economic growth, generating tremendous sales and tax revenues for the state. They provide career and employment opportunities for individuals of every age, background, skill, and experience level. Restaurants are an important part of their communities and neighborhoods, enthusiastically and generously giving their time and resources to support a variety of causes.

## RIPPLE EFFECT

Every $\$ 1$ spent in restaurants in State generates an additional $\$ 1.52$ in sales for other industries in the state. Each additional $\$ 1$ million spent in eating-and-drinking places in State generates an additional 41.5 jobs in the state.

## 20XX RESTAURANT SALES

- $\$ \mathrm{X}$ billion (projected)

## LOCATIONS

- 20XX number of eating and drinking places in State -X

## EMPLOYMENT

- 20XX estimated restaurant and foodservice employment - X
- 20XX projected restaurant and foodservice employment - X
- Total new jobs added X-X - X (22.7\% growth)

Restaurant and foodservice employment represents $9 \%$ of all employment in State today.

## (Source: State Restaurant Association.)

## CITY MARKET

City is one of the top three cities in the country for people going out to eat. The overall growth of the City economy offers high paying jobs to college graduates from across the country. Success of the City sports franchises and the community support of State collegiate sports provide many opportunities for sports bars/restaurants. City businesses will be going smoke free in September 20XX. While others will have to change their image as a smoky sports bar, Restaurant will be "smoke free" inside the restaurant from opening. Restaurant will have a large patio where customers who wish to enjoy tobacco products can do so while still enjoying the restaurant and watching the games on high def TVs located on the patio.

## TARGET MARKET

Our target market is middle to upper income families and the family friendly sports fan.

## SELECTED SITE

Information on the planned site are attached or available upon request

## COMPETITIVE ANALYSIS

There are a number of different restaurant and sports bar competitors in our market area. None offers Restaurant unique family friendly restaurant and sports bar combination with game rooms and patio seating with fire pit. Our difference is that we are a family oriented restaurant first and a sports bar second. We are looking for families to come in and eat, watch sports, and spend time together while the kids have fun playing in the game room. Below are our closest competitors and how they compare:

## Café X (Address.)

- Latin fusion - Caribbean to Latin America
- Family welcoming
- Very small bar (mostly to supply the dining room)
- 1 TV
- "To go" and "catering"
- Not sports oriented

## The Y Tavern (Address)

- Typical smoke filled Sports Bar
- No patio and no room for one (Will not be able to handle smokers after the Sept. 1 smoking ban in City)
- 1 projection TV and some small TVs high up on wall
- 2 pool tables and dart boards
- Serves only simple appetizer type food
- Brings in food from outside on occasion
- Caters mostly to young single males and females

## Barbecue \& Saloon (Address)

- Exclusively BBQ
- Family oriented, rustic style restaurant
- Not sports oriented
- 4 regular TVs
- "To go", "delivery", and "catering"

## Chili's (Address)

- Similar type menu (competes for restaurant business)
- TV's only in bar area with no individual voice boxes
- Not sports oriented
- No game room for children

## Buffalo Wild Wings (Address)

- Located in strip malls
- Limited bar and grill/to-go type menu
- Caters mostly to single males and females
- High definition and regular TVs but no individual voice boxes
- Semi-sports focus

## Hooters (Address)

- Located in stand alone facilities.
- Do not cater to the family restaurant business
- Caters to male adult with risqué image
- Sports bar
- Have high definition and regular TVs.

## Z American (Address)

- Not as family friendly
- Similar type menu
- No game room for kids
- Fewer TVs
- 2.5X-3 X size of Restaurant
- Large, standalone buildings are expensive to operate.
- Struggle to provide Restaurant "neighborhood feel, " due to size and number of customers

## Sports Grill (Address)

- Families typically do not frequent this establishment.
- Attracts high-end crowd (adults and singles)
- Premium prices for alcohol and food
- High overhead of being located in the Galleria
- Pool tables for adults/no game room for kids.

The City market wants family oriented casual dining with an overall high quality product and a friendly place to watch "the game." Z American fills this need in a single location near the X. However, this is insufficient to meet the needs of a city of almost X million people. Chili's fills part of this need with approximately X locations throughout the City area. They provide good high quality food in a family atmosphere, but they only have TVs in the bar area and only a few there. This does not meet the need of the family oriented sports fan.

City has fans and alumni clubs from all the major colleges in State and many from outside State. It is not unusual to have fans want to watch five or more football games simultaneously. Restaurant provides that experience. With the wireless voice boxes, each fan can listen to their own game. No other competitor in City provides this experience.

## DEMOGRAPHICS

Our target market is a 4 mile radius of the restaurant, which contains approx. X people (pending selection of final location). Growth is $3-4 \%$ per year.

## KEYS TO SUCCESS

- A quality experience every time (e.g., quick, efficient, and friendly service, customers who know the owners and who are known by the owners)
- Large number of high definition TVs capable of showing ALL the games
- High quality food, warm, friendly informal environment, and a large selection of various types of alcohol, especially draft beer.

## SATISFYING A UNIQUE NICHE

Restaurant is much more than your typical sports bar and grill. We have created a unique niche. We are, most importantly, a family oriented restaurant. One that just happens to specialize in sports.

Most sports pubs do well during the intense fall sports season. But during the rest of the year business drops off dramatically in these other establishments. Restaurant has positioned itself as a quality family restaurant first.

But don't think Restaurant doesn't take it sports seriously. Far from it! Restaurant is committed to being the very best place for fans to view their favorite sports teams. Team banners are grouped by conference and region, so fans feel comfortable.

Our focus on college and professional sports ensures
 no one is left out when it comes to being in the middle of the action. We'll have sports memorabilia from all facets of the sports world. Many fans enjoy visiting our famous coach's wall, with customized, autographed pictures of some of the most prolific sports figures in the public eye. We also will have a dedicated wall for the local Youth League and High School sports standouts.

Restaurant offers a totally new approach to the dark, smoke-filled bars of the past. It is in fact an evolution of the sports bar concept and reflects the current demands of the emerging family life where both parents work, and quality time with the children centers around mealtimes. Families increasingly want to take the kids wherever they go because the total time spent with them in recent years is much less than it used to be. Restaurant is a concept whose time has come and, by making the children comfortable and keeping them entertained, it almost ensures that the parents will bring them back time and time again.

Restaurant is also committed to being technologically ahead of the game, with up to fifty large LCD, high definition, and wide screen televisions strategically positioned so every fan has the best seat in the house, even in the restrooms. State of the art, wireless voice boxes bring the sound of the game directly to each table and every guest. With our full line-up of Direct TV packages we provide our customers the chance to see almost any game. We also feature NTN Trivia and free WiFi access. Outside, customers can enjoy dining or have an after dinner drink on our patio around our circular fire pit. And we'll have TV's outside so no one misses the action.

## PROVIDING A UNIQUE CONCEPT

One of the primary strengths is the concept of a new way to view sports. No more smoke-filled bars with little to offer in the way of food. We offer an upscale full-service menu in a bright open restaurant, with all of the current electronic technology in satellite and televisions for viewing all of the major sports. In addition, we draw in patrons of all ages and all economic categories by keeping the price points moderate and perceived value high.

## REGULATIONS

State requires a one year residency to obtain a liquor license. The manager will have one year residency in October 2007.

## STRATEGY

We plan to open by January 1, 20XX. To do that we plan to lease by September 1, 20XX and build out by December 1, 20XX.

Before we open, a $\$ 5,000$ guerilla marketing campaign will begin including hard copy mail-outs and some media marketing. Two weeks before grand opening we will target market local customers utilizing a variety of media. During the following three months the accumulated advertising dollars $(\$ 4,500)$ will be paired with the Franchisor's $\$ 5,000$ for an advertising blitz. This will include heavy coupon mail-outs, target marketing to prior customers, free dinners, discounted items, and mix of media. Our continuing monthly advertising budget is allocated at approximately $3 \%$ of gross with an additional $1 \frac{1}{2} \%$ contributed to national.

## MARKETING AND PROMOTION

The first four months of an Restaurant is extremely important in determining its long term future success. Restaurant understands the necessity in implementing a surgical and aggressive marketing and advertising plan. Our marketing and advertising strategy will be split into six areas:

1. Pre-opening Guerilla Marketing Campaign: As a welcome to the neighborhood promotion, we will purchase ten thousand full color double side fliers promoting Restaurant and our menu. These will be distributed personally, along with a take-out menu, to every business (except competitors) within a 5 -mile radius of the restaurant by the owner operator and X X, President of Restaurant. We will also visit every apartment complex, church, school, civic organization, police department and YMCA within a 5 -mile radius prior to the soft-opening date. An additional ten thousand fliers will be purchased to be inserted into the newspaper for delivery to the homes located in the zip codes of our immediate trade area. During the first 5 days after our opening we will run commercials on local radio station whose listeners closely match our targeted customers. We also locate on the internet; local alumni clubs, pro sports clubs, civic clubs, schools, fraternal organizations, etc. and email them promoting the Restaurant concept.
2. On-qoing In-house Marketing: The dining experience created at Restaurant for its customers is the single most important type of advertising. Great food, great service, and an exciting atmosphere will keep the customer coming back again and again. This begins with attention to details such as customer greeting, appearance and cleanliness of the restaurant, positively outrageous service, suggestive selling and plate presentation. These are all key elements that we will focus on to not only make the customers satisfied, but to encourage them to tell others about their experience. This is the most successful approach to advertising, as the customer is the best salesman of all!
3. Community Involvement: We plan on implementing the following programs:

- Certificate of Merit program in all elementary and middle schools in the local trade area.
- Sponsor one team from each division of little league associations. The teams will be from PeeWee, Minors, Majors, and Seniors.
- Sponsor a co-ed softball team. The captain of the team we sponsor will give the opposing team flyers each week including discount coupons.
- Work with charitable organizations each year providing them with food and/or $\%$ of revenue from gift card sales.
- Assist local churches with food drives.
- Market our Gift Cards to local youth leagues and high schools for their fundraising activities.

4. Media Blitz \& Monthly Advertising: Beginning with the fourth month of operation, $4.5 \%$ of gross sales from the first three months and every month thereafter will be set aside for Cable TV and radio advertising locally. The commercials which will be produced at the actual franchise
location and shall be aired on local cable television as well as stations such as Lifetime, FOX Sports Net, ESPN and ESPN2.
5. Print advertising: Promotional ads in the area papers and magazines. Advertise in the game programs for football and basketball with the area high schools.
6. Web Page: We believe that the majority of our targeted customer own personal computers and use the Internet for shopping and choosing restaurants. As such, a well designed web page will be an expected and essential component to our complete marketing and promotional mix.

With X X's pre opening marketing blitz through the community, opening week will be extremely strong. With continued support of our local schools and community we will always have our best marketing tool (Word of Mouth). With a lot of homes now having home computers we believe a well-designed web page of our store will be essential with the growth of our business.

## TRAINING AND SUPPORT

Prior to store opening, Restaurant will provide an intensive six-week franchise training program. This program is designed to educate each new franchisee in all aspects of restaurant operations and provide them with the tools to achieve success. Some of the topics to be covered:

1. Customer Service
2. Preparation of Restaurant menu items
3. Quality and Food Portion Control
4. Beverage and Inventory Management
5. Cost Control
6. Employee Hiring and Scheduling
7. Store Safety Guidelines
8. Management Tools and Systems
9. Turnover Reduction
10. Budgeting and Forecasting

Store opening training will be provided by the Corporate Training Team for ten days prior to the store opening date and for seven days after. This training will include a more "hands on" approach to managing and successfully running an Restaurant restaurant. This will help ensure a smooth opening and transition to a successful operation.

The Corporate Support Team also provides ongoing knowledge and support after the store is up and running. This includes detailed Operations Manuals, support by veteran Field Service Representatives, as well as advice and counsel for all areas of operation.

## PRICING

Our prices on both food and liquor is very comparable to other restaurants and bars in the area.

## MENU

Our menu includes appetizers, burgers, certified Angus steaks and BBQ ribs, kids' menu, salads, sandwiches, and specialties. Menus are attached or available upon request.

## PROFIT OPPORTUNITY AND COST MANAGEMENT

Because of the pricing structure of menu items, management controls of costs is an essential part of the day to day operations for ensuring profitability. This is the primary reason why the concept is one of owner-operator, and as such, is a more successful approach to guarding bottom-line profits.

## OWNER AND MANAGEMENT

## DAVID OWNER - DAILY OPERATIONS MANAGER

Mr. Owner age XX, is the owner and Daily Operations Manager. He has over XX years of experience working for large companies. He has had a successful career in $\mathrm{X}, \mathrm{X}, \mathrm{X}$, and X . He has significant experience developing and controlling multimillion dollar budgets.
